

I hold a deep passion for music. I have been a professional musician since 2003, performing as a saxophonist and violist in classical, jazz, period performance, electronic and pop music. Besides my soloist education and performing career, I also took additional courses in Basics on arrangements and composition, Emotional Intelligence in Education and Stress, Management in Education, Mindfulness, Alexander and Feldenkrais Techniques.

I am currently freelancing with different ensembles in diverse music genres and sharing my love and passion for music with my private students and working as a studio and concert violist and saxophonist.

I am mama of a beautiful boy and can't wait to make music with you in music together tulip kids.
